PROJECTS

NYAYAK | FLUTTER, FIREBASE, LLM(AI)
Team Lead | 2024
Developed a legal service platform during a 36-hour
hackathon, connecting customers with legal service providers
- Integrated an AI chatbot for real-time legal guidance
- one-to-one chat functionality to facilitate direct
  communication.

MENTOR CONNECT | FLUTTER, FIREBASE
2024
Developed a cross-platform mobile application to connect
aspiring professionals with industry mentors for guidance. This
Flutter-built app fostering a seamless user experience for both
mentors and mentees.
- Firebase for real-time communication
- Focusing on exception UI/UX

SHUBH-YATRA | FLUTTER, FIREBASE
2023
Developed an app for bus ticket reservation, focusing on UI/UX
and engineering practices for an optimal user experience.
- Integrated Firebase's real-time database for seamless
  data management

CONTRIBUTIONS

I have actively contributed to several significant tech projects,
including the college website, department website, and college
app, all of which are live and have greatly enhanced user
experience and accessibility
